Ambar Gupta

Bhopal, Madhya Pradesh, India itsambar14@gmail.com 9098619773 in/ambar-gupta-095347291 ambar1418.github.io/my_portfolio/

SUMMARY

Motivated and detail-oriented Computer Science/Engineering student with a strong foundation in programming and web development. Proficient in C, C++, Java and Python with hands-on experience in solving algorithmic challenges and building logical solutions. Skilled in front-end technologies including HTML, CSS, and JavaScript, with a keen interest in creating responsive and interactive web applications. Eager to apply technical expertise in real-world projects and contribute effectively in dynamic development teams. Quick learner with excellent problem-solving skills and a passion for continuous learning in the field of technology.

PROJECT

MY-TalkNet

ambar1418.github.io/My_TalkNet/

- Developed an AI-powered chatbot using modern technologies such as React.js and CSS.
- Enabled natural language interaction to simulate real-time human-like conversations.
- Designed a clean, responsive interface with engaging CSS animations and effects.
- Integrated modular React components to structure the application efficiently.
- Showcased strong frontend skills and creativity through problem-solving and UI development.

Weather-App

ambar1418.github.io/weather_app/

- This is a weather app that shows weather.
- It was made using some HTML, CSS, and JavaScript.
- The app is good for checking weather updates.

Gradient-Color-Generator

ambar1418.github.io/color_change/

- Gradient color change is a visual design technique that smoothly transitions between two or more colors.
- It enhances user experience by creating a dynamic, eye-catching background or component effect.
- Gradients can shift on hover, scroll, or interaction, adding a modern and interactive feel to websites and applications.
- When combined with animations, gradient transitions bring depth and motion to otherwise static elements, making the interface more engaging and attractive.

EDUCATION

B.Tech

Sagar Institute Of Science And Technology • Bhopal, M.P. • 2027 • 7.35

Saraswati Higher Secondary School • Manpur Umaria, M.P. • 2023

- 87%.

CERTIFICATIONS

Samadhan 2.0

Sagar Institute Of Science And Technology Gandhinagar • 2025

- Participated in **Samadhan 2.0**, a **36-hour national-level hackathon**, focused on solving real-world problems through innovative tech solutions.
- Collaborated in a **team environment** to design and develop a working prototype within a limited timeframe.
- Applied skills in **problem-solving, coding, and critical thinking** to address complex challenges under pressure.
- Gained hands-on experience in **end-to-end project development**, including ideation, design, and presentation.
- Enhanced technical expertise, **time management**, and **team communication** while competing with top participants nationwide.

Samadhan 1.0

Sagar Institute Of Science And Technology Gandhinagar • 2024

- Samadhan is a technology-driven innovation event focused on solving real-world problems using Artificial Intelligence.
- In this challenge, participants are required to design and develop a smart AI-powered chatbot capable of understanding natural language and delivering meaningful responses.
- The goal is to create a virtual assistant that can communicate like a human, assist with queries, and provide intelligent solutions across different domains.

- This event encourages creativity, problem-solving, and hands-on experience with tools like NLP, machine learning, and frontend development frameworks.
- It offers a platform for budding developers to showcase their AI skills and build solutions that matter.

SKILLS

Programming Languages: C, C++, Python, Java

Web Development:
Frontend: HTML, CSS, JavaScript
Backend: Django,Fast-Api
